Sequence 12207, Application US/09335032

GENERAL INFORMATION:
APPLICANY: Velculescu, Victor
APPLICANY: Voyelstein, Bert
APPLICANY: Voyelstein, Bert
APPLICANY: Voyelstein, Characterization of the Yeast
TITLE OF INVENTION: Characterization of the Yeast
TITLE OF INVENTION: Transcriptome
FILE REFERENCE: 01107.78572
CURRENT APPLICATION NUMBER: US/09/335,032
CURRENT APPLICATION NUMBER: US 60/035,917
PRIOR APPLICATION NUMBER: US 60/035,917
PRIOR APPLICATION NUMBER: US 99/012,031
PRIOR FILING DATE: 1998-01-22
NUMBER OF SEQ ID NOS: 12219
SOFTWARE: FastSEQ for Windows Version 4.0
SEQ ID NO 12207
LENGTH: 1531974
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          alignment_block:
